

Badminton Dwarf Categories

Dwarfs BMDST6 (1):

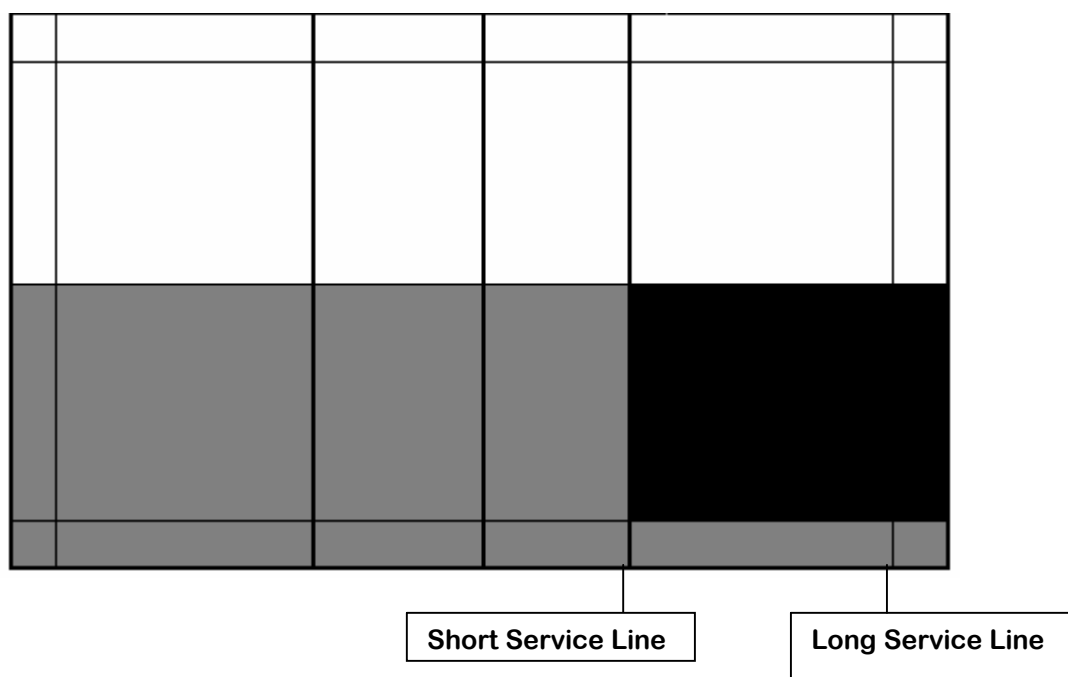

This is for players under 120cm in height with more restrictions over their mobility caused by their restricted growth condition.

For example players with conditions such as S.E.D, Diastrophic Dysplasia, and certain cases of Cartilage-hair hyperplasia etc.

This classification is for players with achondroplasia who are under the height limit, but are still relatively mobile.

The net height will be reduced to **140cm** and all **BMDST6 (1)** will play on a half court as displayed below.

 =Court area for Play  =Service area

Play and Service court for single standing badminton dwarf class 1.

Dwarfs BMDST6 (2):

This is for players who mainly have the condition Achondroplasia although there are other Dwarfism's which will fall into the **BMDST6 (2)** classification. Athletes must be a maximum height of, 135cm for ladies and 140cm for men.

There are no changes to the standard rules or court size.
